COMMUNITY CHOIR

From September, we are going to start a community choir linked with our two churches. The choir is for anyone who loves to sing. The main criteria are enthusiasm and commitment. We would like this to be a real community choir and so are opening it up to all ages from 7 - 100+.

All children under the age of 16 must be accompanied by an adult.

It will be on a Tuesday evening and will take place in The Old Schoolhouse from 6:30pm until 7:45. We have to finalise dates, but are planning on term time only. We are looking for a voluntary donation of £1 per person /family per session. There will be more information to follow in the coming weeks, and registration forms will be available soon.

We look forward to singing with you soon!

I came to bring fire to the earth

Anthony de Mello tells the following parable of the man who invented fire:

"A long time ago, there was a man who invented the art of making fire. He took his tools and visited a tribe in the north, where the climate was bitter cold. The man taught the people how to make fire. And the people were spellbound. He showed them many uses for fire: they could cook, keep themselves warm, keep predators at bay and dance by firelight. So they built fire and were very grateful. But before they could express their gratitude, the man disappeared, because he wasn't concerned with recognition or gratitude. He was concerned only with their well-being.

The fire-making man visited a different tribe, and began to teach the art of making fire. Like the first tribe, this tribe was mesmerised. But the tribe members' passion unnerved the tribe's leaders. It didn't take long for them to notice that the fire-making man drew large crowds, and the leaders worried about lost influence and power. Because of their fear, the leaders determined to kill the fire-making man and they devised a clever plan because they were worried that the tribe people might revolt. Can you guess what they did? The leaders made a portrait of the fire-making man, and displayed it on the main altar of the temple. The instruments for making fire were placed in front of the portrait, and the people were taught to revere the portrait and to pay reverence to the instruments of fire. The veneration and the worship went on for centuries.

But there was no more fire."

"The day will come when, after harnessing space, the winds, the tides, and gravitation, we shall harness for God the energies of love. And on that day, for the second time in the history of the world, we shall have discovered fire."

(Pierre Teilhard de Chardin)
